Note:-

- 1) While all 4G operators class these plans as “unlimited” all are subject to a FUP (Fair Use Policy) to prevent abuse. This alters so please check their T&C’s on Website
 - 1) The speeds quoted are an indication of the accepted UK average **NOT** a guarantee of the speed available to you. This can only be obtained following a site survey
 - 2) The speed available to you is dependent upon the service offered by your service provider, equipment on the mast and your distance from it.
 - 3) The fastest speed achieved for a client to date is 176 mb down and 46 mb up.
 - 4) Not all service providers cover all areas.
 - 5) Sim is for data use only. No calls or texts are included
 - 5) There is no need to keep your existing phone & broadband line. If you wish to keep your phone number, we can “port” this out so that your phone number still works on the new 4/5G broadband connection. Note this will require a different type of phone that uses VoIP.
